DETAILED ACTION

Allowable Subject Matter

Claims 1-29 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest art known to the Examiner is listed on the attached PTO 892 form. None of the references or combinations thereof disclose or suggest annealing the gate oxide in a second gas atmosphere including a second amount of chloride than is greater than the first amount of chloride (which is used in forming a gate oxide film). Moreover, the cited references do not disclose or suggest annealing the first gate oxide film in a second gas atmosphere including chloride; forming a pattern; removing a portion of the first oxide film from the first region using the pattern as an etching mask; removing the pattern; and forming a second gate oxide film having a second thickness that is less than the first thickness on the first gate oxide film and on the first region by an oxidation process using a third gas atmosphere. Therefore, Claims 1-29 are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
